

Innovation and performance, transparency and continuity: these are the qualities that set ST Extruded Products Group (STEP-G) apart. We are one of the worldwide leaders in the production of extruded aluminium. With around 900 employees and production plants in Belgium, Germany and China we have a multinational success, in Germany with our plants in Bitterfeld, Bonn and Vogt.

The **STEP-G plant located in Tianjin** with approx. 170 employees produces extruded profiles for constructive solutions mainly in vehicle manufacturing industries. It possesses extensive know-how in manufacturing of safety parts and crash components as well as 7000 series alloy. For our plant in Tianjin we are looking for a
